IN INSECT CONTROL

A HISTORY OF DEPENDABLE SERVICE

For over thirty years, Starbar® products have been relied upon from home to barn for controlling the insects that interrupt the solace of country life. From fighting mosquitoes and flies to fire ants and bed bugs, Starbar has a solution that your customers can count on. Starbar® products have cultivated a reputation of providing trustworthy products known for their longevity and effectiveness. Stocking Starbar® products can keep your shelves current and help ensure your store is prepared for the upcoming insect season. Visit starbarproducts.com or call **1.800.347.8232** to learn more about Starbar® products.

Flies are irritating and they spread disease. Dealing with flies is part of life in the country, and Starbar offers a line of fly control that makes it easy. Whether it's in the home, in the yard, or in the stall, Starbar offers cost-effective options that will help keep flies under control and customers happy.

CHEMICAL OPTIONS – Chemical control products attract and help control adult fly populations and can be used in various locations within rural properties such as garbage facilities, manure piles, storage sheds and areas away from where livestock feed.

QUIKSTRIKE® FLY SCATTER BAIT

With the active ingredient Dinotefuran, QuikStrike® Fly Scatter Bait kills nuisance flies quickly and controls those resistant to carbamate and pyrethrin baits and sprays. Its homogenous formulation contains Z-9 tricosene to attract flies and can be used daily where flies are a problem.

3006231	1 lb can	12
3006192	5 lb can	6

GOLDEN MALRIN® FLY BAIT

The standard in fly baits for over 30 years, Golden Malrin® Fly Bait draws flies in to feed with Muscamone® fly attractant. As they feed on the sugar-based bait, the active ingredient methomyl starts killing flies immediately after ingestion. Golden Malrin® Fly Bait can be used in rotation with QuikStrike® Fly Scatter Bait as part of an integrated program to fight flies.

25100D	Twin pack	12

PROLATE/LINTOX-HD™ INSECTICIDAL SPRAY & BACKRUBBER

Diluted and used as a spray or in a backrubber, the powerful active ingredient in Prolate/Lintox-HD™ Insecticidal Spray & Backrubber kills pests on contact. Prolate/Lintox-HD™ Insecticidal Spray & Backrubber can be used for treatment of horn flies on non-lactating cattle or for lice and sarcoptic mange on swine. It also kills mites and ticks.

NON-INSECTICIDAL TRAPS & ATTRACTANTS – Fly traps are insecticide-free options for controlling flies in areas around livestock, children and pets. They can be used in conjunction with chemical methods to help keep fly populations under control.

FLYRELIEF™ & GIANT FLYRELIEF™ TRAPS

Recommended for perimeter use around rural residences and farms, FlyRelief™ Disposable Fly Trap catches thousands of flies while Giant FlyRelief™ Disposable Fly Trap catches twice as many. These disposable bag traps are easy-to-use and come with a built-in attractant.

The standing water in retention ponds, stock tanks, birdbaths and gutters are all breeding grounds for mosquitoes. Help rural customers fight mosquitoes around their farms and homes with mosquito control products offered by the Starbar® brand. From extended control in standing water, to quick knockdown on the front porch, Starbar® products have mosquitoes covered.

MOSQUITOES

PRE-STRIKE® MOSQUITO TORPEDO®

Stop mosquitoes before they start. The IGR in Pre-Strike® Mosquito Torpedo® treatment helps prevent mosquito larvae from developing into breeding, biting, disease carrying adults. Each torpedo, when dropped into standing water around rural properties, can provide up to 60 days of protection.

PROD. #	PROD. DESC.	CASE QTY.
3006190	5-pack	12

PRE-STRIKE® OUTDOOR FOGGER

Heavy mosquito populations around rural properties can be controlled with Pre-Strike® Outdoor Fogger. One fogger can treat up to 10,000 sq ft. providing quick knockdown of adult mosquitoes. Pre-Strike® Outdoor Fogger features the active ingredient Etofenprox and is also effective on wasps and hornets.

100502370	14 oz aerosol	12

Fire ants and their burning stings are painful to humans and animals, leaving welts and causing stress. Fire ants spread quickly in rural areas, building mounds that mar property and cause loss for land owners. Starbar offers products that stop fire ants and prevent their rebound. From the back 40 to the backyard Starbar can help keep property fire ant free.

FIRE ANTS

EXTINGUISH® PLUS FIRE ANT BAIT

This bait combines two active ingredients to control fire ant infestations. Extinguish® PLUS Fire Ant Bait contains an Insect Growth Regulator (IGR) that sterilizes the queen to stop reproduction and prevent rebound, and a fast-acting adulticide that kills problem worker ants upon ingestion.

24570	1 lb jar	12
24550	4.5 lb jug	4

Bed bug infestations have recently been on the upswing and rural areas are not immune. Starbar offers a line of products that effectively kill and control resurging bed bugs to help stop them from becoming a part of country living. These products are formulated to specifically target bed bugs in the home, or when traveling to ensure your customers' peace of mind.

**PRE-STRIKE® NATURALS
BED BUG KILLER -
HOME SPRAY**

Pre-Strike® NATURALS can be used twice daily in the home to kill bed bugs on contact and stop their eggs from hatching. The non-toxic, 25b formulation is approved for use around children and pets. Spray it on mattresses, bedding and carpets.

PROD. #	PROD. DESC.	CASE QTY.
100506018	24 oz pump	12

**PRE-STRIKE® NATURALS
BED BUG KILLER -
TRAVEL SPRAY**

A pesticide-free solution for bed bugs, packaged to take on-the-go. Pre-Strike® NATURALS is non-toxic and the travel size is carry-on compliant. It is approved for use in homes, hotels, hospitals and public areas. Pre-Strike® NATURALS can be sprayed on mattresses, box springs, headboards, carpets and luggage to help travelers stop bed bugs from traveling into their homes.
