

A HIGHER LEVEL OF CONTROL

FLY CONTROL AT ALL LEVELS

Sticky Traps

HIGH - LEVEL

CEILING SUPPORT BEAMS

- Flies rest up high
- Contrasting colors entice flies to land
- Hang in livestock areas above their reach

Odor & Pheromone Traps

MID - LEVEL

WALLS WINDOW LEDGES

- Pheromones and feeding stimulants lure flies to traps
- Hang along alleyways or open areas to attract flies away from livestock

Baits and Strips

LOW - LEVEL

FLOORS ALLEYWAYS

- Flies feed at low levels
- Sugar-based with attractants encourage flies to feed
- Scatter on the ground or hang outside of livestock reach
